Stop working!!! ☺ It's gorgeous outside.

A couple of them were u/c buys from Boston (informant) and the others directly related to OD.

I was actually shocked to see Lynn and one of Boston's samples were over 20% because they had so much crap in it for such a small out of sample.

Defendants we so use to getting crappy stuff that their body probably could not handle increase quality.

Beautiful chart. Are any of these directly related to OD's or are they the ordinary street samples? Very interesting that they seem so low.

Hi,

Please see attachment for the results of the Heroin Purity on some random samples for Heroin ODs.

Thanks.
